

Integration of ProScale/ProScaleE in LCA software and SSbD toolbox

Tomas Rydberg, IVL, 2024-05-31

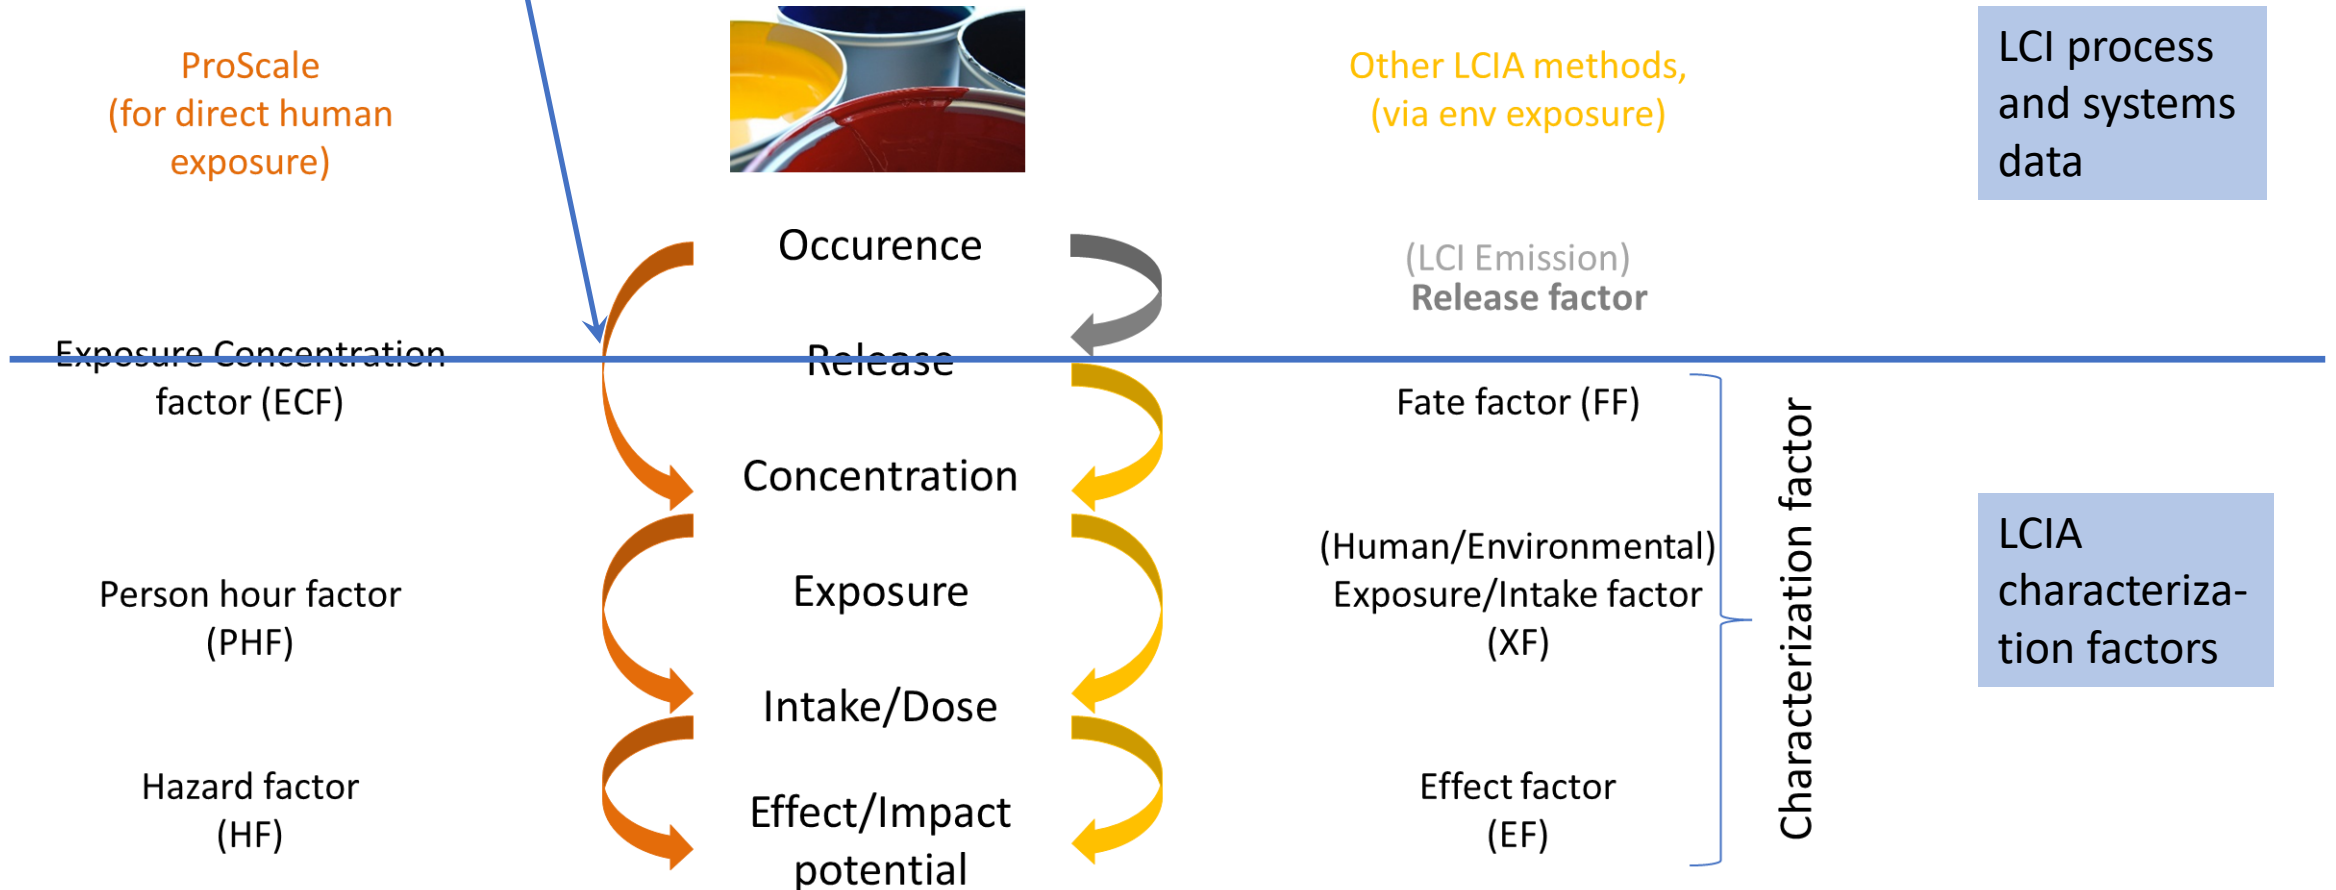

Existing webtool as starting point

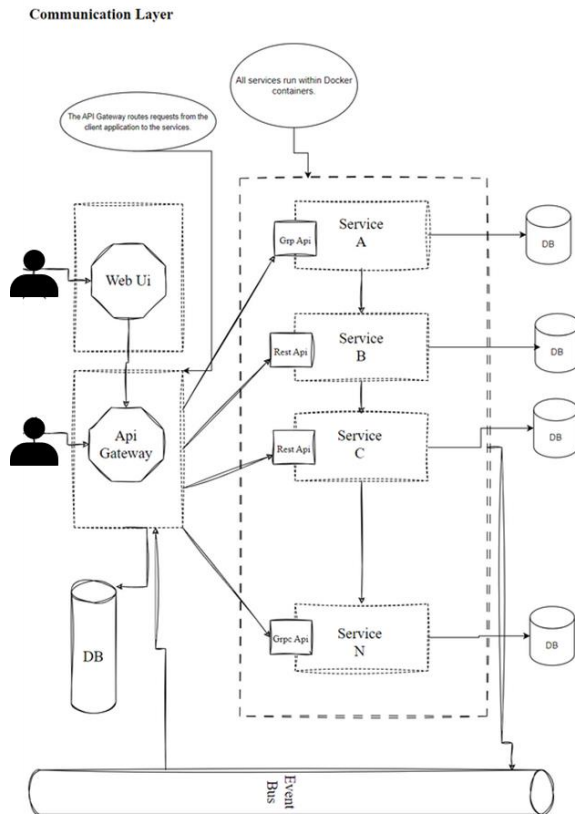

- Current limited functionality
 - Stand-alone
- Will be redesigned and upgraded, starting now
 - Include also ProScaleE
- A two-tiered setup
 - Basic, free version
 - Advanced, pay-version
- Support integration
 - Import/Export
 - API

Typical division of LCA into LCI and LCIA - a challenge for ProScale (but less for ProScaleE)

Integration of tools - schematic

- The ProScale and ProScaleE application is planned to be linked to the SSbD toolbox
- Work will start under 2024 (i.e. now)

We thank our sponsors!

- The European Union for financial support
 - project number 101060546 – CALIMERO, <https://calimeroproject.eu/>
 - project number 101137990 - CheMatSustain, <https://chematsustain.eu/>
- The Swedish Research Council for Sustainable Development (FORMAS, grant 2021-00445) for financial support. <http://www.formas.se>
- The Swedish Foundation for Strategic Environmental Research (Mistra: project Mistra SafeChem, project number 2018/11) for financial support. <https://www.mistrasafechem.se/>

ProScaleE development partially co-funded by the European Union, projects 101060546 and 101137990 . Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union.
